PARENT'S NIGHT

Parent's Night and Open House was held on May 8, by the 1st Carmangay Pack.

A good attendance of parents, grandparents and interested friends of the cubs were present to observe the boys go Up the Cubbing Ladder. This program was especially dedicated to all mothers present, since May 10, was Mother's Day. Each boy demonstrated a Star Test he had to learn or had already passed.

Cubmaster Mrs. Josephine Minty, gave a short narrative on the history of Cubbing and introduced her assistants, Mrs. Doreen Greene, Mrs. Irene Durell and two cub instructors Larry Lyckman and Roderick Minty who helped all winter to prepare this program.

In keeping with the jungle theme the cubs performed two jungle dances, the first being The Dance of Shere Khan and second the Dance of Bagheera. A sing-song was held following the star test demonstrations led by Akela, who was assisted by Assistant District Commissioner for Lake McGregor District, Jerry Wylie of Vulcan, who was on hand to observe the program.

A display of handicrafts made by the cubs during the winter months proved most interesting to all present.

Lunch was served by the sixers and seconds and assisted by Miss Josephine Minty, but organized by

Mrs. Hazel Lyckman and Mrs. Gertie Greene.

AUTOMATION

A few short years ago, the small boys in the family could push the mower around the lawn quite safely but today's power mower is no

toy even for younger teenagers. The metal blade of some power mowers revolves at four thousand times a minute. Before using the power mower, the lawn should be cleared of stones and obstacles.

University Male Chorus Makes New Friends

An audience of about 170 children and adults enjoyed, for their first time, the appearance of the University of Alberta Male Chorus on May 6 at the County Central High School auditorium.

End of the university year and students graduating and taking summer employment cut the group's number from 38 as it appeared on the program, to 24, but its balance and tone quality seemed unaffected by the loss of numbers.

Under the direction of David Peterkin, supervisor of music for the Recreation and Cultural Development Branch of the Provincial Government, the men covered a wide range of music forms from the works of Handel, and Schubert to familiar Gilbert and Sullivan arrangements by Mr. Peterkin and on to favorite quiet airs and rollicking sea shanties.

Throughout the performance complete emphasis was placed on exact interpretation of the music through the skillful direction of the conductor who was able to draw great variety of tonal effects from full volume to the beauty of soft voices in quiet passages.

From a formal beginning the fun and enjoyment of music which seemed to pervade Mr. Peterkin's character, spread through his leadership to the singers and to the crowd and as the evening progressed into the second half of the concert, many listeners were wishing the years could fall back so they might take part themselves in such a musical experience.

To end the program the chorus rendered its unofficial theme song "I've Got No Use For Women" and surprised the audience and conductor with the appearance of a beetle wig on accompanist Dave Puzey, a volley of pistol shots from one of the singers and fal-

setto singing by another during the break-down version.

Two sets of piano selections were given by Dave Puzey and soloists Alan Jones, John McEwan and Ted Sugden were all featured in various numbers.

An appreciated "extra" on the program was the appearance of the County Central Glee Club under the direction of Mrs. Caroline Johnson which was invited to take part in the evening. Accompanying this group in several numbers was pianist Mrs. A. Whiteside.

The chorus was introduced by President Evan Munro, of the sponsoring Vulcan Lions Club and committee chairman Art Jones thanked the singers at the end of the evening and voiced appreciation of the Lions club to those who billeted the performers during their overnight stay.

Thursday morning, the chorus gave an hour's concert to a large enthusiastic audience of students at County Central High before departing for performances at Taber, Coaldale and High River later in the week.

OUTDOOR COOKIN' TIME!

With a long weekend coming up and fair weather, we hope, outdoor eating will be in the spotlight again.

If you're planning the weekend away, you'll want to plan your menus in advance. Probably steaks or barbecued chicken will be down for one of your meals.

For a quick and easy meal, a foil cooked meal on the barbecue or in the open fire is simple to prepare. Once you try it, you will use it often with your own variations.

Chicken-In-A-Packet:—

Place individual servings of chicken (cut-up) in squares of foil large enough to fold completely over the chicken. Before closing packet, sprinkle chicken with 1-2 teaspoons of dehydrated onion soup mix. Using a drugstore foil, wrap chicken in the foil. At the same time, scrub and wrap medium sized

potatoes in aluminum foil. Bury in the hot coals or place on the grill. Cook for 1 hour or until the chicken is tender and the potatoes cooked. Turn packets once or twice to provide even cooking. Serve with a tossed salad and French bread.

Hamburger A La Foil:—

For an individual serving, form a 1/4 lb. ground beef into a patty. Spread well with prepared mustard. Place some carrot and potato slices on top and along sides of the meat. Slice some onion on top if desired; season with salt and pepper, sprinkle with water and wrap in foil. Place on the grill, allowing about 7 minutes on both sides.

On your weekend excursion, a handy item to take along is a bar of laundry soap. Rub the bottom and sides of aluminum pots and pans with soap. Smoke from the fire will wash off like magic!

— LAST WEEK'S MARKET REPORT —

FRIDAY, MAY 8th BEEF AND FEEDER CATTLE—

We had a real good sale with our cattle prices being fully competitive and higher in spots. Good to choice Butcher Steers \$21 to \$23; Good to Choice Butcher Heifers \$19 to \$21.20; Good Butcher Cows \$14 to \$16.25; Good Feeder Steers \$20 to \$23.50; Good Feeder Heifers \$18 to \$21.50; Good Steer Calves \$22 to \$26.50; Good Heifer Calves \$18 to \$22; Stock Cows with their calves \$160 to \$235; Stock Cows with no calves are hard to move.

SATURDAY, MAY 9th PIG AND MILK COW SALE—

A lot of hogs with prices easier. Piglets \$7 to \$9; Good Weaner Pigs \$10 to \$12; Good Feeder Pigs \$12.50 to \$32; Piggy Sows \$45 to \$85; Boars \$15 to \$40. Baby Calves— It looks like the extremely high prices have come to an end. This week calves ranged from \$15 to \$45. Milk Cows sold at \$150 to \$200.

PLEASE HAVE YOUR CONSIGMENTS IN OUR BUILDING BEFORE 1:00 O'CLOCK ON SALE DAY

We are getting too many reserve bids being put on milk cows and this, as far as we are concerned, has got to stop. Our customers, as we have said before, are willing to pay good prices for good cattle, but they won't pay good prices for junk — and we don't blame them. If you think your cow is so good, better keep her at home. Because she must be too good to sell. This also holds true for those bad stock cows that are being shuffled off.

FRIDAY, MAY 15th, 1:30 p.m.—

Regular Beef and Feeder Sale. We have the buyers.— "Bring us your cattle and receive that little extra."

We are OPEN 'TILL 11:00 P.M. on Thursdays.

SATURDAY, MAY 16th, 1:30 p.m.—

Regular Pig, Sheep, Horse and Milk Cow Sale. Market your Butcher Hogs through H.R.A.M.

WHAT IS INDUSTRIAL ARTS

First of all, industrial arts helps you understand the people and things around you. As you look around your room, your home, your neighborhood, you see so many things that are manufactured products of industry.

Industrial arts is a study of industry. It helps us to understand how things are made, and the materials used. It helps us to understand also the work of people in industry. It teaches us how these people are organized to work together efficiently, to make many products so that we can all have a better life.

Industrial Arts helps develop valuable skills. Many people are naturally handy around the house. Others again have no idea where to begin a repair job. A good industrial arts course helps you to know how to solve minor repair problems and thus, save you many dollars in repair bills. You may become a do-it-yourself-er. It also helps a person to know whether he gets value for his money in a purchase or repair job.

Industrial Arts helps you decide on a vocation. Here you have an opportunity to learn many skills explore your abilities and compare them with those of other people.

Industrial Arts provides experiences that lead to hobbies. Most people like to make things with tools and machines. Many adults have hobbies which started in their industrial arts classes leading to a richer, fuller and happier life.

CONSERVATION PLANNING

Spring seeding is once again upmost in everyone's mind. However I would like to break into the sphere of spring plans to stir some thought towards soil conservation.

Maybe some changes in our rotation would help that 80 acre or quarter section field that was sifting early this spring. A point of clarification: sifting and drifting fields both mean a loss of valuable top soil!

Early this spring our County Service Board organized some Emergency Soil Drifting Control meetings and a number of field demonstrations. It is with a recollection of these events that our County Agricultural Service Board wishes to draw to everyone's attention the need for planning a rotation that will assist in controlling soil drifting.

Research has shown that with average precipitation, stubble land can be successfully re-cropped if depth of moist soil is at least 18 inches in clay soils, 24 inches in loams, and 30 inches or more in sandy soils. By knowing the depth of moist soil in your land, a re-cropping program can then be considered. This might also be of assistance in getting some smaller strips which are useful aids in the control of soil drifting.

Records at the Lethbridge Research Station have shown that when precipitation during the growing season averaged 7.4 inches, each foot of moist soil measured in the stubble prior to seeding a second wheat crop accounted for slightly more than 2½ bushels of wheat per acre. When depth of soil moisture averaged 2.5 feet, each inch of precipitation received from April 1 to July 31 accounted for slightly less than 2.25 bushels of wheat per acre.

Further records have shown that there is at least a 50-50 chance of obtaining 7.4 inches or more precipitation during the growing season at Lethbridge. These odds should be taken into consideration when estimating the probable yield of wheat on dry land stubble.

Mr. Farmer . . .

Through the years in Southern Alberta Wind Erosion has been an element to be reckoned with when summerfallowing. With this in mind your Agricultural Service Board would like to urge ALL FARMERS to consider this problem when planning their crop rotation this coming year.

Your WIDTH OF STRIPS is an important method to aid in the control of Soil Erosion. Have you considered narrower strips in your planning?

Lionettes Learn About Shoes At April Meeting

"Men, contrary to popular belief, are the main offenders in wearing of illfitting shoes," James Rankin, manager of Roberts and Spence's Shoes of Calgary, stated as he spoke Monday evening before 38 Lionettes and their guests, "Ninety-five per cent of women wear the proper size but the male sex are inclined to buy their shoes too small".

The Lionette April meeting was held in the basement of the St. Andrew's Church, where a lovely banquet was served by the CWL.

The lively entertainment provided by Mr. and Mrs. James Rankin drew a capacity crowd to view and inspect the latest in footwear. Mr. Rankin said the only other part of the anatomy that compared in movement to the foot is the tongue and that the secret for happy feet was the right shoe for the right occasion — the average lady needing approximately 30 pairs to be correct at all times.

He spoke of the trials of the shoe-store to stock each fitting as there are today 210 different actual sizes. His display included styles from the teen's favorites to the high winter cossacks that extend above the knee.

Following the entertainment, the business part of the meeting included the nominations for new officers, with the election to be held next month.

After a lengthy discussion, a motion was carried that each member would pay \$12 per year which would include suppers and dues. This would be payable with the installation of the new officers.

A report from Rose Munro disclosed that the Lionettes were able to donate a sum of \$33.05 to the local Boy Scout Assoc. from the sale of the doughnuts donated by the Vulcan Bakery and coffee at the recent Boy Scout Auction Sale.
